BACK-STITCH SEAM

This is the method most commonly used for joining knitted garments. Hold the pieces together with right sides inside. The seam should be sewn one full stitch in from the end of each row so that all seams will be even. One stitch should be worked over every row. Darn in all ends of yarn **after** sewing seams.

Sew braces in position, securing ends of each one with a single stitch of C5. **HAT** - Join cast-on and cast-off edges of Brim tog. Join inner edges of Top Section. Join inner edge of Brim to outer edge of Top Section.

Place Hat onto head and secure with small stitches. Using C10 and French Knots (see page 15), embroider 2 buttons along centre front of Hansel's shirt, as pictured.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

FLAT SEAM

This method is sometimes used for knitting garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece.

Note: Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic - there should be as much stretch in your seam as there is in the rest of your garment.

FRENCH KNOTS

Bring the thread out at the required position, hold the thread down with the left thumb and encircle the thread twice with the needle (A). Still holding the thread firmly, twist the needle back to the starting point and insert it close to where the thread first emerged. Pull thread through to the back and secure for a single French Knot, or pass on to the position of the next stitch (B).

STEM STITCH

Work from left to right making small regular stitches. The thread should be kept to the right of the needle, which means it will always emerge from the left of your previous stitch.

TASSELS

To make a tassel, cut a piece of cardboard several centimetres long, to the width desired (i.e. the length of the tassel you wish to make). Wind the yarn round and round the cardboard – the number of times it is wound round the cardboard depends on how bulky you wish to make the tassel. Break off yarn, leaving an end several centimetres long, thread through needle. Slip needle through all the loops on the cardboard, and tie yarn tightly at one edge. Slip cardboard out and wind the yarn several times around the loops 1 cm from the fold. Draw the needle through the top and attach tassel where desired. Cut through the other fold and even off the ends.

RUNNING STITCH SEAM

This is an easier and quicker method than the back-stitch, yet gives the same neat appearance on the right side of the garment. It is worked from the right side, making the matching of stripes, Fair Isle and fancy patterns quite simple. The stitches should be taken one knitted stitch in from the edge so care must be taken to "unroll" edges of work as you go along. Use a knitters needle – this has a blunt end to avoid splitting the yarn.

Place the 2 pieces of knitting side by side, with right side uppermost. Leaving an end about 15 cm long (to be finished off later), insert the needle from wrong side to right side between the first and second rows on the left-hand piece of knitting, (this is the only stitch which is taken from the wrong side). Move to the right-hand piece of knitting, insert needle between cast-on and first row and bring it out between second and third rows (thus picking up 2 cross bars). Return to left-hand piece, insert needle in same space as that in which yarn came out from previous stitch (between first and second rows) and pick up 2 cross bars. Continue working from side to side in this manner. Leave stitches about 1cm wide until you have completed about 2 cm of stitching, then pull thread up fairly firmly to close seam. Yarn should be tight enough so that it does not show, but loose enough to allow the garment elasticity. Take care not to pull through the end left at the cast-on edge.

Check that pieces are even at the top of the rib and at any horizontal lines in the pattern (diagram has been shaded as in 2 row stripes to show the correct placement of stitches so that stripes will match perfectly). Finish the top of your seam with 1 or 2 straight stitches over the cast-off edge and not over the seam, and the lower edge of your garment will be perfectly straight, with no unsightly dip at the seam).

If you have trouble matching your work at the top of the rib, you may find the following suggestion helpful – Use a thread long enough to join the entire seam, leaving most of this thread free to join the main part of your seam, begin at the top of the rib and work towards the cast-on edge as follows – pick up the cross bars of the two top rib rows on the left-hand piece of knitting, move to the right-hand piece of knitting, leave the top row of rib free, then pick up the cross bars of the next 2 rows. Continue in this manner with the shorter end of your thread until you reach the cast-on edge and finish off as described before. Then thread the long end of the thread into your needle and complete the seam in the normal way.

If this seam needs to be unpicked at any time, simply cut the thread at top and bottom and pull the thread out.

KNITTING STITCH EMBROIDERY

Interest can be added to garments with Knitting Stitch embroidery- this is very easy to do, especially if you do the embroidery before you sew up the garment. Knitting stitch is worked over each knitted stitch with a contrasting colour. It is necessary to use yarn of the same thickness as the knitted garment. Be careful not to pull the stitch too tightly and it will cover the existing stitch completely. A completed stitch looks like a "V". Each square on the graph represents one stitch. It is a good idea, before beginning, to colour in the graph in the colours to be used.

Begin at lower edge of graph, on the right-hand side. Using a tapestry or knitters needle, bring the needle from the back through the centre of the stitch below the one to be covered. * Take needle from right to left under both strands of stitch above the one to be covered. Bring needle back to the start of the stitch, take needle behind 2 strands in row below and across into the centre of next stitch. You have worked one knitting stitch. Repeat following graph for required number of stitches. To finish, bring needle back to the start of the stitch and through to the back of the work.

To begin the second row - Bring needle from back to centre of stitch below the one to be covered. Working from left to right pick up both strands of stitch in row above the one to be covered. Take needle back to beginning of stitch, pick up 2 strands which brings the needle across into centre of next stitch. When working stitch above one worked in the previous row your needle will come up in the centre of this worked stitch. Repeat this, following graph for number of stitches to be worked.
